

lib/Temperature/temperature.hpp

```
graph TD; A[lib/Temperature/temperature.hpp] --> B[Arduino.h]; A --> C[GyverMAX6675.h];
```

The diagram illustrates a hierarchical relationship between three header files. At the top is a grey box labeled 'lib/Temperature/temperature.hpp'. Two blue arrows point downwards from this box to two separate white boxes below it. The left box is labeled 'Arduino.h' and the right box is labeled 'GyverMAX6675.h'. This suggests that 'lib/Temperature/temperature.hpp' depends on or inherits from both 'Arduino.h' and 'GyverMAX6675.h'.

Arduino.h

GyverMAX6675.h
